

C++ Senior Software Engineer

[Apply Now](#)

Company: ECB

Location: Spain

Category: computer-and-mathematical

Descripción del empleo

At ECB we are looking for a Senior Software Engineer to join our client's team, a proprietary company focused on secure cloud storage and communication. The position consists of developing, testing and debugging the core functionality and algorithms that drive the core of the client's products.

Tasks:

Independently complete projects to a high standard.

Investigate and assess the impacts and risks of different problems, approaches and existing patterns and suggest solutions to the team leader and the business.

Review code, algorithm and software designs to ensure a high quality implementation.

Requisitos

5+ years of experience working in C++.

Ability to work in C++11.

Advanced level of English.

Experience in profiling applications, identifying bottlenecks and programming inefficiencies.

Ventajas

Direct incorporation into our client's staff on an indefinite basis.

Development and training for employees.

100% remote working.

Subsidies for telephone and Internet expenses.

Organisation of indoor and outdoor events.
