

Digital IC (Middle-end) Design Engineer

[Apply Now](#)

Company: ic resources

Location: Spain

Category: other-general

Brilliant opportunity for a Senior IC Digital Design Engineer to work for global semiconductor company, with offices in Northern Spain.

Applicants MUST be fluent in Spanish AND English. Visa sponsorship is only available for Spanish and English speakers.

Qualifications:

Bachelor's or Master's Degree in relevant field, with 5+ years' work experience in ASIC digital design/development processes.

Excellent RTL coding skills in Verilog

Knowledge of standard Digital Verification languages (System Verilog, UVM) and metrics.

Very good understanding of the middle-end/back-end flow: Synthesis, P&R, DFT, STA etc

Excellent communication skills / fluent English.

Knowledge/Experience with the following is a plus:

Embedded designs and/or firmware development

UPF / power / low-power constraints

formal

FPGA design and validation

ARM IPs, protocols - AMBA / AXI / designs

Scripting and automation languages like TCL, Python and C/C++

Middle-end design experience

If you'd like to know more, please apply by sending your CV.
