[Apply Now](#)

Company: leadtech

Location: Spain

Category: other-general

We're looking for a **Product Designer** who is passionate about their work, adapts easily, and shares our company values!

A little bit about us

Leadtech has been fostering and developing innovative digital businesses across several industries since 2009. It has since then expanded to a team of over 500 committed employees working all over Spain. We are thrilled to have more than 23 nationalities working together and very proud to see that our products and services are enjoyed by millions of users monthly around the globe.

How will you make a difference

You're our perfect candidate if you:

- Analyze UX problems and create design solutions that meet measurable business requirements and goals

- Deliver innovative results in UI/UX designs (portfolio of relevant work)

- Incorporate market analysis, customer feedback, technical constraints, and usability findings into design

- Quickly and iteratively create interaction flows and wireframes throughout the design process

Demonstrate ability to plan and execute a robust UI/UX process across multiple feature sets within a single mobile app.

Develop and maintain detailed information architecture and design specifications

Present work to Product and Engineering teams, as well as stakeholders and executive leadership

Perform quick but thorough data analysis in order to uncover insightful and actionable results that drive tactical and strategic product decisions

Ability to dive deep into both qualitative and quantitative data in order to bring forward new insights that generate product innovations

Ability to work in different projects

Communicate results and opportunities in clear, concise, and compelling ways to all levels of management

Requirements

Your expertise in a nutshell:

At least 5 years of professional product design experience as a key member of a design team participating in the product development lifecycle

Strong portfolio of design projects and UI/UX processes

Bachelor's degree in design, related field, or equivalent professional experience

Solid knowledge of Figma

Experience creating and maintaining UI kits and design systems

Experience participating in usability testing and design research activities

Familiarity with analytics data to inform design decisions

Solid knowledge of interaction design, typography, color, and page layout

Strong organizational skills

Your team

We're team-first. If you believe in the power of collaboration and that the team's success is your success, then you're one of us!

Fun is fundamental. We believe in forming strong bonds in and outside the office. That's why we have a team-building budget and organize activities to enjoy ourselves.

Positivity wins the day. Having a positive attitude and communicate openly. Self-awareness and an openness to learn are always a plus.
