Software Developer (m/f/d) AWS

Apply Now

Company: TecAlliance

Location: Spain

Category: computer-and-mathematical

Helping our customers to sell more parts & make things easier with our data and solutions based on our globally leading data standards

TecAlliance interconnects entirely global automotive aftermarket data & and knowledge from order to invoice. Over 900+ colleagues work relentlessly globally together in 140 countries and counting. We are owned by 34 automotive companies like Bosch, Continental, Rheinmetall, or ZF and proudly connect all data for them.

leads a team of 20+ colleagues across Europe and can´t wait to welcome you. Our Business Unit Data Manager RMI is generating efficiencies for our clients by using our manufacturer-compliant data-driven solutions & and services that facilitate their repair and maintenance processes. Your contributions will be instrumental in minimizing the risk of software defects, bugs, or critical errors, ensuring a seamless user experience, and maintaining the high standards of quality our users expect.

This newly created role as **Software Developer (m/f/d) AWS** can be started as soon as possible, is unlimited full-time employment, and can be performed in our office in Tenerife or from your home office within Spain. You´d be part of for our team with focus on process optimizing services & solutions at TecRMI. This means you will be working within an international team with focus on frontend application and backend services

In this role, you will collaborate with seven others to the development and design of high-quality software solutions, leveraging your management experience to coordinate and

support colleagues while challenging the status quo to drive business unit success.

Precisely this means:

Develop high-quality software according to the latest technical standards.

Implement the first service with a customer-facing frontend.

Collaborate within an international development team to realize a combination of IT application and service delivery to customers.

Maintain a highly focused approach to delivering added value to our users by challenging the status quo.

Prepare for future projects aimed at supporting the workshop customer journey.

The techstack you bring to the table:

You are a seasoned developer and have experience in React, Javascript, and typescript

You speak advanced English (C1)

Ideal to have:

AWS general serverless knowledge

AWS AppSync, DynamoDB, Lambda

German is highly advantageous

As our team is international, we´d appreciate an english CV. Thank you.

Benefits:

Contracts, Salary, and non-monetary benefits

All our contracts are by default unlimited (probation period is six months)

Contract title: your position is part of our job profile "Software Developer". Our generic job profiles compare groups of employees with similar tasks that are part of the same area of responsibility/team. The displayed title above ensures that you can find us.

Compensation package: 97% fixed base salary paid monthly, with a 3% performance-based

bonus paid annually, dependent on company performance.

Our travel policy allows for expense reimbursement, ensuring you can explore the world without stressing over your wallet

 Group accident insurance

Discounts on our corporate benefits program with a broad range of partners

Flexible remuneration: You have the option to allocate a portion of your salary towards either discounted meal vouchers, kindergarten or health insurance, providing you with valuable benefits and tax advantages.

Location-independency / flexibility :

Hybrid or Remote within Spain: Remote work from anywhere in Spain or a hybrid setup. For hybrid, you'll join us at our Santa Cruz de Tenerife office one day per week. Flexible options tailored to your preferences and lifestyle.

Structured Onboarding: you receive an individual onboarding plan, have multiple onboarding days in the beginning, and a wealth of e-learning, training, and documentation besides your team at your disposal

Set-up: for this, we will provide you with a tailored tech set-up (notebook, headset, backpack) if you are working in an office, and for remote workers we have an extended set-up

Vacation: 30 working days a year

  Balance job & life: Flexible working hours: you decide where and when you work

OKRs instead of micromanagement: our OKRs ensure that our leadership style is based on results, not the process. In other words, we practice extreme ownership.

Culture:

We value ownership, cooperation, entrepreneurial thinking & and self-reflection to communicate effectively as ONE team

  Team culture is Key! We have fun at work and beyond: There is always something to celebrate and regular team events.

Come as you are - do you prefer T-shirts over a shirt? Great.

Your contribution matters: shape our value-driven culture and agile transformation together with your colleagues – we´re curious, want to go one step further, build further trust together, and join forces to tackle our challenges as a team
